staying **Alive**

The hit song, "Staying Alive" by the Bee Gees has the perfect rhythm for performing CPR /chest compressions!

Rabbits are a commitment. They can live anywhere from 10 to 15 yrs - the same life span as your average cat or dog.

They're also the THIRD most popular pets behind cats and dogs - as well as the third most abandoned.

fruits and veggies in moderation only!
Rabbits have very sensitive GI tracts and too much can be too much!
